

Welcome

Welcome to the EI Centro College Associate Degree Nursing Program. We are delighted that you have selected EI Centro College to pursue your education. This is an excellent time to enter the nursing profession. The nursing shortage Texas is experiencing means you will have many employment choices and opportunities available to you upon graduation.

As you begin your nursing skills to achieve your dreams and goals take advantage of the education opportunities you will be provided throughout the nursing program. Reach for the knowledge and skills. Knowledge is power. Knowledge will open your future. The faculty, staff, and current students will do all they can to help you accomplish a smooth transition to your new environment and your future.

This nursing student Handbook has been prepared to introduce the program policies and to provide a ready resource for answering questions related to these policies. You will be able to access the current Handbook on eCampus. Additionally, you will need to acquire a copy of the EI Centro Student Handbook and College Catalog each year you are in the program. These publications will provide expanded student service descriptions and district policies. Please keep current on the latest publications. Policy changes will also be discussed in class/clinical/skills. If you find that you need additional information, feel free to ask your course coordinator and/or instructor.

On behalf of the faculty and staff, we wish you success in the program. We encourage you to seek out any additional assistance or information that you need from us that will support you in reaching your goal. I look forward to seeing you on campus developing your skills to enter the nursing community with our rich tradition of excellence.

LaCheeta McPherson, Ph.D., M.T. (ASCP), CLS (NCA), Executive Dean, Health and Legal Studies,
Charlotte Green, MLA, RN, Associate Dean, Associate Degree Nursing
Sondra Flemming MS, RN, Vice President, Health & Economic Development
